Summary

Experience in AI and web applications using **Django/DRF**, **FastAPI**, **LangChain**, **React**, **Golang** and **AWS** focused on scalable and user-centric projects

Work Experience

Artilence

Johar Town, Lahore

SOFTWARE ENGINEERING INTERN

Aug 2024 - Oct 2024

- Collaborate to build RestFul APIs with **Django DRF and FastAPI with Postgresql, caching via redis, React for frontend** for an AI driven **multi-tenant** ATS system and screening AI interviewer leveraging OpenAI and VAPI.
- Developed a student community platform using **Golang/Fiber, and WebSockets, optimized media transfer with chunking and compression**. Parsed resumes and **managed complex JSON data for PostgreSQL, ensuring seamless migrations using Alembic**.
- Explored **RAG** solutions with Python, **LangChain and vector databases** and multi-agent systems and **LangGraph**.
- Scraped job portals using **Beautiful Soup**. Collaborated via **Slack, Jira, and Git/GitHub**.

Personal Projects

Project Management tool for small to medium size remote teams

python-Js

FULL-STACK DRF| WEBRTC|WEBSOCKETS|LANGCHAIN| POSTGRESQL| REACT| INDEPENDENT PROJECT

- Developing an AI-powered tool **targeting small remote teams**, as an alternative to complex platforms like **Jira or ClickUp**.
- Key features developed are:** User-friendly modern UI, multi-tenant system enabling users to join multiple organizations with distinct roles in each, role-based invitation workflows via email, analytics Dashboard, JWT auth, project kanban board with task staging, prioritization, assignment, and commenting, user profile and notification system with user preferences.
- Premium features (in progress):** Built-in video/audio calling, real-time text chat, and AI-powered LangChain flows for smart task management and summaries.
- Future Pipeline features:** Group chat and video conferencing, an AI-powered assistant for natural language task creation.
- GOAL:** A tool designed for small remote teams that need simplicity without sacrificing collaboration. **CLICK to see**

Personalized AI Mock Interviewer with Analytics Dashboard and Feedback

Python

FULL STACK FASTAPI| VAPI| REACT JS| POSTGRESQL | TEAM PROJECT

- Developed an AI-powered interview platform using **React, FastAPI, and PostgreSQL**. Implemented resume parsing leveraging LLMs, JWT authentication, and profile management with multiple resume storage. Integrated VAPI for AI-driven interviews, storing reports in the user dashboard. Enabled interview customization based on tech stack and difficulty level.
- GOAL:** Mock AI interviewer where students can give interviews and analyze past stats on their dashboard. **CLICK to see**

POLLS-APPLICATION

Python

FULL STACK DJANGO SSR| AWS|GUNICORN+NGINX|DNS|SSL INDEPENDENT PROJECT

- Developed and deployed** pursuing production level practices an app following **official documentation** thoroughly and implement features like **Authnetication, Authorization,polls creation, voting,searching,testing results display and friendly UI**.
- GOAL:**The Goal was to Demonstrate proficiency in Django ORM, Database API,templating, admin customization, URL routing, Bootstrap (UI). **CLICK TO SEE THE APP**

DIGITAL WALLET

Python

FASTAPI | SQL DB PROJECT | TEAM PROJECT

- Digital wallet that allows users to create accounts, manage transactions, and operations related to deposits, withdrawals, transaction log and currency management. **Built RestAPIs, wrote raw queries to enhance performance and used ORM**.
- GOAL:** The project is designed to provide a secure and efficient platform for handling digital financial activities. **CLICK to see**

Skills

Languages Python • CPP • Golang • JavaScript • TypeScript • HTML • CSS • SQL • Postgresql • Bash Script
Frameworks Django • DRF • FastAPI • React • OpenCV • Tailwind • Bootstrap • LangChain • Streamlit • LangGraph
Technologies Git • Github • Linux • Jira • Slack • Open Ai • VsCode • PyCharm • Jupyter Notebook • RAG • Vector database • Figma • Visual Paradigm

Education

University of Management and Technology

Lahore, Punjab

B.S. IN COMPUTER SCIENCE

2021 Fall - 2025

- Activities: Competition Management (UMT ACM)** Organized leetcode coaching and manages different programming events.
