Summary

Experience in **AI and Full-stack web** using Django, FastAPI, LangChain, React/Vue.js, Golang and AWS focused on scalable and user-centric projects.

Work Experience

Code Graphers

Gulberg, Lahore

ASSOCIATE FULL STACK DEVELOPER

Aug 2025 – Present

- Engineered agentic voice agent use voice ai framework pipecat python-sdk and reduce SST time by **30 percent**
- Built **microservice** architecture using the **AWS ECS** tasks and services, deployments, wrote **CI/CD pipelines** and **dockerfiles**.
- Build a screening bot using twilio directly with pipcat using media streams instead of daily save **50 percent cost**.
- Developed a video calling app with custom Ui with Vue.ts and daily api integration. Develop deepgram transcription bot instead of built-in daily-transcription save **30 percent cost**.
- Enhance performance of API at DB operations by **30 percent** in a Django-rest application.
- Use parallel processing and scheduling of tasks using **celery and celery beat**.

Artilecne

Johar Town, Lahore

SOFTWARE ENGINEERING INTERN

Aug 2024 – Oct 2024

- Built scalable RESTful APIs using Django DRF and FastAPI, backed by PostgreSQL and Redis, with a React frontend for an AI-driven **multi-tenant ATS** and screening system powered by OpenAI and VAPI.
- Engineered a real-time student community platform using Golang (Fiber) and WebSockets, enabling efficient media sharing with chunking and compression; ensured smooth migrations using Alembic.
- Prototyped **RAG pipelines** using LangChain, vector databases, and LangGraph for multi-agent reasoning and contextual retrieval.

Personal Projects

Independent Project - Python, JS, DRF, React, WebSockets, WebRTC, LangChain, PostgreSQL

AI-POWERED PROJECT MANAGEMENT TOOL FOR REMOTE TEAMS

- Building a full-stack project management platform tailored for small, remote teams, a lightweight alternative to complex tools like **Jira or ClickUp**. Designed for simplicity, collaboration, and smart automation.
- Implemented core features: **multi-tenant architecture**, organization roles, **JWT authentication**, role-based invitations, analytics dashboard, Kanban task board, commenting, and a customizable notification system.
- Developing premium features: built-in **video/audio calling**, real-time chat, and **LangChain-powered** task summaries.
- Planned roadmap: group chat, video conferencing, and an AI assistant for natural language task creation. **Live App**

Team Project - FastAPI, React, PostgreSQL, VAPI

AI MOCK INTERVIEW PLATFORM

- Co-developed an AI-driven mock interview platform with configurable tech stacks and difficulty levels.
- Built a secure **FastAPI** backend with JWT auth, multi-resume profiles, and LLM-powered resume parsing for tailored questions.
- Implemented voice-based AI interviews using **VAPI**, delivering structured feedback and performance analytics.
- Focused on accessibility and realistic simulations to improve student interview readiness. **View Code**

Independent Project - Django, PostgreSQL, Gunicorn, Nginx, AWS

FULL-STACK POLLS WEB APP WITH PRODUCTION DEPLOYMENT

- Built and deployed a feature-rich polls application using **Django** with server-side rendering, implementing authentication, authorization, poll creation, voting, search, and results visualization.
- Followed Django's official best practices to gain proficiency in Django ORM, templating, admin customization, and URL routing.
- Deployed on an **AWS EC2 instance** with Nginx, Gunicorn, DNS setup, and SSL for a secure production-ready deployment.
- Live App** - a demonstration of end-to-end full-stack development and DevOps deployment skills.

Skills

Languages Python • JavaScript • Golang • TypeScript • CPP • SQL • Bash

Frameworks Django • DRF • FastAPI • React • Tailwind • Bootstrap • OpenCV • Streamlit • LangChain • LangGraph

Technologies PostgreSQL • Git • GitHub • Linux • VScode • PyCharm • Jupyter • Jira • Slack • RAG • Vector DB • Figma • Visual Paradigm • OpenAI

Education

University of Management and Technology

Lahore, Punjab

B.S. IN COMPUTER SCIENCE - CGPA: 3.2+

Fall 2021 – 2025

- Activities:** Led competition management for UMT ACM, organized LeetCode coaching sessions, and hosted programming events.
